Dear Neighbor:

The Lower East Side traditionally votes for Democratic candidates for elective office. We ask that you join us this November 2nd and make an exception in the race for Congress. BILL GREEN is the reason.

Congressman Green has been an outstanding member of the U.S. House of Representatives for New York City and for the Jewish community. He has supported the State of Israel vigorously and has been active in the battle to free Soviet Jewish Prisoners of Conscience.

For his work on behalf of the City of New York, Bill Green has been endorsed by Mayor Ed Koch, who is himself a Democrat. He was, in fact, instrumental in obtaining \$260 million in Federal funds to purchase and repair subway cars and buses. He stood strong despite pressure from his own party to ensure a wide range of assistance to the City and especially to its elderly citizens.

Congressman Green has been a spokesman for the Lower East Side, even before redistricting. His hard work will stop the decaying process that years of government neglect has brought on. Bill Green sincerely wants to bring business and renaissance to the Lower East Side. We think he can do it.

The Lower East Side and indeed the City needs Bill Green in Congress. His vision, dedication and energy warrant our support. Please vote for him on the INDEPENDENT or REPUBLICAN lines.

Sincerely,

William E. Rapfogel
