Yale University
New Haven, Conn.

Dear Sir:

We the membership of the Village Independent Democrats find it reprehensible that Yale University, a center of learning that would claim to teach civic morality and ethics as well as academic subjects has the misjudgement of having a wage structure that discriminates against women and racial minorities. Furthermore it is a disgrace that the University has a medieval stance toward its own technical and clerical employees to the point of forcing them to strike as the only possible means of redressing the injustice they suffer under.

We strongly urge you to go back to the bargaining table to make an offer they can accept with honor and justice.
